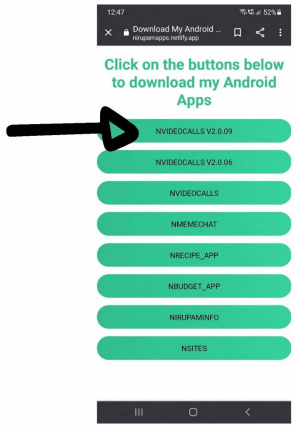
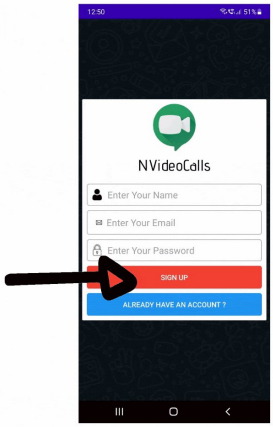
Download

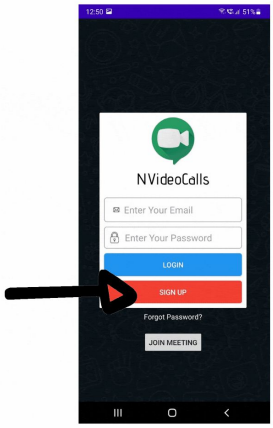
To download NVideoCalls Version 2.0.09 on Android go to https://nirupamapps.netlify.app and click on Version 2.0.09 or visit nvideocalls.netlify.app and click on let's get started, then you will be redirected to https://nirupamapps.netlify.app .



Sign Up / Login

After downloading and installing NVideoCalls, click on sign up and then enter your Name, Email, password. Then click on sign up, then go back to login page and enter your Email and password and click on Login.





Join Meeting

After logging in, you have to type in a code to join meeting. After you enter the code, click on join to enter the meeting. There is a issue with NVideoCalls, the issue is after closing the app , it automatically logs you out, to make it easier we have inserted a button named "Join Meeting" at the login screen , after reopening the app click on Join Meeting which redirects you to the Dashboard Activity. NVideoCalls is trying to avoid auto logout. So please don't get angry 😤. And after entering the code you can share it with your friends, family ,etc.
